PRATIK KURDEKAR

+91 9209789721 | pratikkurdekar@gmail.com | Pune, Maharashtra

SUMMARY

Motivated Full-Stack Developer with hands-on experience in frontend & backend development, building responsive web applications & RESTful APIs. Completed a development internship & full-stack training with practical project experience & agile exposure.

WORK EXPERIENCE

SONATA SOFTWARE LTD | Digital Engineer Trainee **Dec 2024 - Feb 2025 | Bangalore, KA**

- Worked with Java, MySQL, HTML, CSS, JavaScript, and Git in a training-based development environment.
- Participated in an agile-based development environment & daily team stand-ups.
- Gained exposure to software engineering practices, version control, and command-line tools.

IPAC AUTOMATION PVT. LTD | Project Engineer (Electronics Company) **May 2024 - Dec 2024 | Pune, MH**

- Functional Block Configuration and Generic Logic Development in DCS.
- Utilized MS Office tools including Excel, Word, and PowerPoint for documentation and reporting.
- Participated in an agile-based development environment and daily team stand-ups.

COURSEWORK

CODING NINJAS PVT LTD | Full stack Web Development Course

- Completed frontend training in HTML, CSS, & JavaScript with hands-on practice.
- Completed backend training in Java, Spring Boot, & MySQL.
- Built responsive UIs & developed RESTful backend APIs using Spring Boot with database integration.

SKILLS

- **FRONTEND:** HTML5, CSS3, JavaScript.
- **BACKEND:** Java, Spring Boot, Spring Data JPA, RESTful Services, MVC Architecture, Hibernate, OOP Concepts.
- **DATABASE:** MySQL.
- **TOOLS:** IntelliJ IDEA, VS Code, Eclipse, MySQL Workbench, Postman, Spring Tool Suit, Git.

PROJECTS

E Commerce Website | Java, Spring Boot, Spring JPA, Hibernate, Bootstrap, MySQL

- Developed an E-commerce web application using Spring Boot, Thymeleaf, Bootstrap and MySQL following MVC architecture.
- Implemented role-based authentication (Admin/User), CRUD operations, cart, & order management.

E-VOTING SYSTEM | Java, Spring Boot, Spring JPA, Hibernate, MySQL

- Developed an E-Voting System enabling election creation, voter registration, candidate management, and secure vote casting.
- Implemented REST APIs, CRUD operations, relational mappings, and business logic to enforce one-user-one-vote validation.
- Designed a layered architecture and tested APIs using Postman for reliability and security.

RESTAURANT MENU WEBSITE | HTML, CSS, JavaScript

- Built a fully responsive website optimized for desktop, tablet & mobile using HTML5, CSS3 & JavaScript.
- Added interactive features like menu filtering, local storage & smooth UI transitions for improved usability & personalization.

PORTFOLIO WEBSITE | HTML, CSS

- Developed a responsive personal portfolio highlighting About, Projects, Skills, Education, & Contact sections with a modern UI.
- Implemented semantic HTML, Flexbox, animations & transitions to ensure accessibility & engaging user experience.

EDUCATION

- **DKTE's Textile and Engineering Institute** **July 2023 | Ichalkaranji, Kolhapur**
  B. Tech in Electronics and Telecommunication
- **Sangli High School and Junior College (HSC)** **July 2019 | Sangli**
- **Emmanuel English School (SSC)** **July 2017 | Sangli**
